Set up a machine

Steps

Fill a bobbin

- put thread onto holder
- Run threads through hooks 1-4 or more
- Attach thread to bobbin
- Place bobbin on wheel
- Press pedal to fill
- Hold until spinning stops on it's own

Load a bobbin

- open the bobbin case
- Set the bobbin into the case in the correct direction
- Close the case

Thread the machine

Thread the machine using the numbered hooks on the machine.

Test stitch and make adjustments to the tension if needed

Page 5 will be fill and load the bobbins

Page 6 will be on threading the machine

What you'll Need:

- Thread
- Clipper or scissors
- Bobbins
- *Extra machine needles
